

# CarePlus gives you coverage beyond your AT&T Medical Program.

<b>What is CarePlus?</b>	<p>In the event you or your family members need health care services beyond what is covered under your AT&amp;T Base Medical Program, you may find coverage for you or your dependent's condition if you are enrolled in CarePlus. CarePlus is a program designed to cover specific services and procedures not covered under AT&amp;T's Base Medical Programs. CarePlus offers two types of benefits:</p> <ul style="list-style-type: none"><li>• <u>Experimental CarePlus</u> offers treatments and services for a variety of conditions like diabetes, cancer, and cardiovascular disease that are considered experimental or investigational such as certain immunotherapy and gene transfer therapies.</li><li>• <u>Expanded CarePlus</u> provides for coverage of certain services that may be beneficial to you and your family such as childbirth classes, respite care, service animals, international travel vaccines, and hearing aid reimbursement.</li></ul> <p>You do not need to be covered by AT&amp;T's Base Medical Program in order to be eligible for CarePlus. CarePlus benefits are administered by UnitedHealthcare.</p>
